

G2 EVOLUTION

Taking it to the next level...

The next generation in Cherry packing technology is here with the all new "G2 Evolution." No other machine in the world can even come close to the flexibility and versatility of the "G2". With its ability to pack clamshells, punnets, to-go cups, bags, boxes, multi-compartmented containers, and multiple products or colors into the same pack. The "G2" is simply a machine that every packing facility needs and wants, to keep up with the ever-changing market demands of the consumer. What is even greater than its versatility is the fact that the "G2" is able to pack over 140 clamshells a minute and do it while being gentler and more reliable than any other machine.

Features and Benefits

Cherry Evolution G2:
